Ramen Noodles

Asahikawa's status as a longstanding transport hub means that seafood and mountain vegetables from around Hokkaido can be enjoyed here. A particularly popular ramen dish contains 'double soup' soy sauce and miso flavored soup stock and starch made from pork or chicken bones. Asahikawa ramen is also distinct for its crinkled noodles which hold the broth well without absorbing much water.

This restaurant was selected as a Bib Gourmand (a category of restaurants serving exceptional food at moderate prices) in the 2012 Hokkaido Special Edition of the Michelin Guide.
